

THE INDOOR VARDEN KIT

Includes a boxed Varden Kit, 2' wide x 3' tall, with a wire panel cut to size, 6 pieces of empty Vardensok mesh for filling with garden soil, cardboard tube for easy sock filling, 12 Varden trays, pre-cut irrigation supply line with fittings, 6 drip lines with fittings attached and 4 wire mounting cleats for easy attachment to walls. Includes a sealed basin, a pump for the irrigation system, an interior wall moisture barrier, side trim and top trim, light mount bars and a 2 ft wide grow light. Can be mounted in places that don't have direct access to natural light. All components are manufactured and assembled in the USA!
